

What is claimed is:

1. A method of controlling inclusion of email content comprising:  
selecting at least a portion of an email message as excluded content;  
transmitting said email message to a recipient configured to exclude said excluded content from a message originating from said recipient.
2. The method of claim 1, wherein said message originating from said recipient is a reply to said email message.
3. The method of claim 1, wherein said message originating from said recipient is a forward of said email message.
4. The method of claim 1, wherein said excluded content comprises the entirety of said email message.
5. The method of claim 1, said method further comprising: inserting a control header into said email message to identify said excluded content.
6. A method of controlling inclusion of email content comprising:  
selecting at least one keyword;  
identifying as excluded content at least a portion of an email message comprising said at least one keyword;  
transmitting said email message to a recipient configured to exclude said excluded content from a message originating from said recipient.
7. The method of claim 6, wherein said message originating from said recipient is a reply to said email message.

8. The method of claim 6, wherein said message originating from said recipient is a forward of said email message.

9. The method of claim 6, wherein said excluded content comprises the entirety of said email message.

10. The method of claim 6, said method further comprising: inserting a control header into said email message to identify said excluded content.

11. A method of controlling inclusion of email content comprising:  
identifying at least one excluded recipient;  
transmitting an email message to said at least one excluded recipient, said excluded recipient configured to exclude at least a portion of said email message from a message originating from said excluded recipient.

12. The method of claim 11, wherein said message originating from said excluded recipient is a reply to said email message.

13. The method of claim 11, wherein said message originating from said excluded recipient is a forward of said email message.

14. The method of claim 11, wherein said excluded recipient is configured to exclude the entirety of said email message.

15. The method of claim 11, said method further comprising: inserting a control header into said email message to identify said excluded recipient.

16. A system for controlling email content comprising:
- a transmitter configured to transmit an email message comprising at least a portion identified as excluded content; and
  - a receiver in communication with said transmitter through a network, said receiver configured to exclude said excluded content from a message originating from said receiver.
17. The system of claim 16, wherein said message originating from said receiver is a reply to said email message.
18. The system of claim 16, wherein said message originating from said receiver is a forward of said email message.
19. The system of claim 16, wherein said excluded content comprises the entirety of said email message.
20. The system of claim 16, wherein said excluded content is identified in said email message by a control header.
21. A computer-readable medium having computer-executable instructions stored thereon for controlling email content, and instructions comprising:
- instructions for allowing a sender to identify at least a portion of an email message as content to be excluded from a message originating from a recipient of said email message; and
  - instructions allowing said sender to send said email message.
22. The computer-readable medium of claim 21, wherein said message originating from said recipient is a reply to said email message.

23. The computer-readable medium of claim 21, wherein said message originating from said recipient is a forward of said email message.

24. The computer-readable medium of claim 21, wherein said content to be excluded comprises the entirety of said email message.

25. The computer-readable medium of claim 21, wherein said instructions further comprise: instructions for inserting a control header in said email message identifying said content to be excluded.
